“ Having access to University Career Services (UCS) changed my life and my career. I only wish I didn't wait until senior year to fully utilize all of the help that it had to offer. I was able to cut down my enormous resume to what really mattered. UCS showed me how to use proper terminology and key phrases to best position myself - eventually leading me to TWO Fortune 500 companies in less than a year. I cannot thank UCS enough for helping me get to where I am today. What I've learned will only help propel me further in my career and I will use this knowledge for the rest of my life.
