Each year, University Career Services conducts a first destination survey of the graduating class to learn more about the career choices made by St. John's graduates. Specially, we seek to identify the numbers of alumni who are employed, seeking employment, or going to graduate school within six months of graduation.

“During my undergraduate studies, University Career Services (UCS) played a critical role in ensuring my academic and professional success. As a current student clinician in a prestigious graduate program, I am exceedingly prepared in my career readiness skills. I was trained by SJU’s amazing faculty in resume and cover letter writing, interviewing, and student mentoring. I continue to apply my acquired knowledge throughout the graduate experience, more specifically, as I apply for competitive externship placements. UCS provides invaluable opportunities for learning and growth to its students, and I contribute much of my success to my previous involvement in the office’s student leadership programs.”
